

through educational activities, online resources and checklists.

Raising the awareness of this issue in both the public and private sectors is absolutely vital as our country becomes increasingly connected.

Cybercrime is a serious business—recent reports suggest that cyber-crime has become a \$105 billion business that now surpasses the value of the illegal drug trade worldwide.

During the past two years, one in five online consumers has been a victim of cybercrime.

But companies and consumers continue to underestimate the threat from phishing, data loss, and other cyber vulnerabilities.

I encourage my colleagues today to support this resolution and join me and Representative CLARKE in our efforts to address this threat to our economy and homeland security.

RECOGNIZING THE BOYS AND GIRLS CLUB OF SIERRA VISTA, ARIZONA FOR ITS PARTICIPATION IN LIGHTS ON AFTER-SCHOOL DAY

HON. GABRIELLE GIFFORDS

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Ms. GIFFORDS. Madam Speaker, I rise today to recognize the work of the Boys and Girls Club of Sierra Vista, Arizona, which will play a very active role in the Lights On After-school Day on October 22.

Lights On Afterschool Day is a national celebration of after-school programs that promotes quality afternoon activities for children and their families. Arizona ranks in the top 10 states for afterschool programs and I commend the Boys and Girls Club of Sierra Vista for its strong participation in this important initiative.

The mission of the Boys and Girls Club of Sierra Vista is to inspire and enable all young people to realize their full potential as productive, responsible and caring citizens. The club operates exceptional youth development programs which provide young people with the knowledge, skills, and attributes they need to pursue their dreams and succeed in life.

The Boys and Girls Club of Sierra Vista also offers a full menu of after-school activities. These activities provide safe, challenging and fun learning experiences to help young people develop their social, emotional, physical, cultural and academic skills.

There are more than 28 million children in the United States with parents who work outside the home. Some 14.3 million of those children have no place to go after school.

The Boys and Girls Club of Sierra Vista leads the way by encouraging community involvement in the education and well-being of our youth. That leadership is grounded in the principle that quality after-school programs are a key to helping our children become successful adults.

Afterschool Alliance Executive Director Jodi Grant has said "The 2009 Lights On After-school events represent not only diverse people and issues, but also diverse interests—whether those interests run to the sciences,

the arts, community service, sports or the environment." The Boys and Girls Club of Sierra Vista is an outstanding example of how children can be engaged in these meaningful activities.

On behalf of a grateful community, I thank the Boys and Girls Club of Sierra Vista for all that it does to engage and educate our children in a safe and caring setting.

BROOKS C. ROBINSON

HON. C. A. DUTCH RUPPERSBERGER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Mr. RUPPERSBERGER. Madam Speaker, I rise before you today to honor Brooks C. Robinson, legendary Baltimore Orioles third baseman and National Baseball Hall of Famer.

Brooks Robinson began his professional baseball career on Memorial Day 1955, when he signed a contract with the Baltimore Orioles for whom he played throughout his entire 23 year career. Known as the Human Vacuum Cleaner because of his astounding defensive abilities at third base, Robinson is generally acclaimed as the greatest defensive third baseman of all time.

In 1964, Robinson won both the American League Most Valuable Player, MVP, and All-Star Game MVP awards. He played in four World Series and in 1970 Robinson received the World Series MVP Award. In 1971, Robinson was awarded the Hickock Belt, emblematic of his selection as the national outstanding athlete of the year. During his career as an Oriole, Robinson won 16 consecutive Gold Glove Awards, a record for nonpitchers.

Besides his superior defensive skills, Robinson holds major league records for his offensive talent as well. Robinson compiled a .267 batting average with 2,848 hits, 268 home runs, and 1,357 runs batted in. After his retirement in 1977, the Orioles retired his jersey, number 5.

Robinson remained active in the community upon his retirement. A longtime supporter of Scouting, Robinson served for many years on the executive board of the Baltimore Area Council, Boy Scouts of America, and is a recipient of the Silver Beaver Award. On December 5, 2006, he was recognized for his accomplishments on and off of the field when he received the Bobby Bragan Youth Foundation Lifetime Achievement Award.

Brooks Robinson has lived in the Baltimore area for over 45 years with his wife Connie. They have four children and eight grandchildren.

Madam Speaker, I ask that you join with me today in honoring Brooks Robinson, a man who has established a standard of excellence both on and off the baseball field. His stellar baseball performance and outstanding community involvement is a sterling example of a true professional athlete.

HONORING EMILY THOMPSON

HON. STEVE AUSTRIA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Mr. AUSTRIA. Madam Speaker, I rise today on behalf of the constituents of Ohio's Seventh Congressional District to recognize and honor Emily Thompson for the courage and selfless action she took to save the life of a fellow citizen.

A senior at Kenton Ridge High School in Kenton, Ohio, Emily is a member of the volleyball team. While preparing for a match on Tuesday, October 13, 2009, a fellow teammate's grandfather suffered an apparent heart attack in the stands. Emily was quick to respond, using her first aid knowledge she learned as a lifeguard she effectively saved the gentleman's life.

Emily deserves our recognition for her bravery, strength of character, and quick action to help when needed. She has shown true signs of leadership and responsibility far beyond her 17 years.

Emily provided a great service both to our community and the family and loved ones of the gentleman she saved and for these reasons she deserves our gratitude and special thanks.

NATIONAL BREAST CANCER AWARENESS MONTH

HON. LORETTA SANCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Ms. LORETTA SANCHEZ of California. Madam Speaker, I rise today to recognize "National Breast Cancer Awareness Month" during its 25th anniversary year.

National Breast Cancer Awareness Month has been at the forefront of raising awareness of breast cancer issues and has continued to evolve along with the national dialogue on breast cancer.

I am a strong advocate for organizations that are dedicated to educating and empowering women to take charge of their own breast health by practicing regular self-breast exams and scheduling annual mammograms.

In my district in Orange County, California, I am proud of the numerous health fairs that promote prevention among our ethnic populations, who tend to be more reluctant to get examined than other populations.

My own staff has been involved in this effort. Laura Martinez, my casework supervisor, was diagnosed with breast cancer in 2006. She underwent a mastectomy, received radiation treatment and is currently taking Tamoxifen.

She has been involved with the American Cancer Society, has shared her testimony, and formed "Laura's Lifeline" team to Race for the Cure.

I recognize that many strides have been made in breast cancer awareness and treatment but there still remains much to be accomplished.

RECOGNIZING TIBOTEC THERAPEUTICS FOR CONDUCTING THE GRACE STUDY, A GROUNDBREAKING HIV CLINICAL TRIAL FOCUSED ON WOMEN AND PEOPLE OF COLOR IN THE UNITED STATES

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Mr. DAVIS of Illinois. Madam Speaker, I rise today to commend and congratulate Tibotec Therapeutics, part of the Johnson & Johnson family of companies, for demonstrating continued innovation and corporate responsibility in the fight against HIV/AIDS by conducting the groundbreaking GRACE study. GRACE, which stands for Gender Race and Clinical Experience, is the largest study to date in treatment-experienced women with HIV to examine gender and race differences in response to an HIV therapy. Findings from this historic study were recently presented at the International AIDS Society conference in Cape Town, South Africa.

In the United States, women are increasingly affected by HIV/AIDS, accounting for more than one quarter of all new HIV/AIDS diagnoses, with African American and Latina women representing seventy-nine percent of women living with the disease. People of color, both women and men, have been historically underrepresented in clinical trials in the United States, and HIV/AIDS disproportionately impacts our African American and Latino communities. In my home State of Illinois, there are over 35,000 people living with AIDS: African Americans represent 50% of these cases, and Latinos represent 13%. In terms of new HIV infections, African American women are infected at a rate fifteen times higher than white women, and Latino women are infected at a rate almost four times as high as white women.

In recent HIV studies of treatment-experienced patients, women accounted for less than 11 percent of the patients being studied, on average. This trial was designed to help overcome some of the barriers, identified by the advisors, which have historically deterred women and people of color from participating in clinical studies, including stigma, lack of child care, transportation and personal support systems. Based upon advisor and community input, study participants could obtain assistance to cover costs associated with their participation in the study, including funds for travel and childcare, as well as food vouchers. Through innovative strategies like these, the GRACE study was able to enroll nearly seventy percent women, sixty percent African Americans and twenty-two percent Latinos. I am proud to say that two of the study sites in this historic clinical trial are located in my congressional district.

Results of the GRACE study showed that there were no statistical differences in the safety, tolerability or effectiveness of the HIV regimens used in the study between male and female participants, or for people of different ethnicities. Importantly, from my perspective, the GRACE study clearly showed that, with the appropriate commitment from the trial sponsor and input from affected communities and providers, clinical trials can, indeed, enroll

meaningful numbers of women and racial and ethnic minorities.

With the GRACE study, Tibotec Therapeutics and Johnson & Johnson continue to demonstrate their leadership and corporate social responsibility as innovators and leaders in the pharmaceutical industry. I commend them for their continuing commitment to the fight against HIV/AIDS and for their leadership in addressing the disproportionate impact of the HIV/AIDS epidemic on women and people of color.

HONORING THE 60TH ANNIVERSARY OF THE ESTABLISHMENT OF THE PHILADELPHIA BRANCH OF THE UKRAINIAN AMERICAN YOUTH ASSOCIATION

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Mr. GERLACH. Madam Speaker, I rise today to honor an outstanding cultural organization that has served thousands of young Americans in the Philadelphia area.

On October 24, 2009, the Philadelphia Branch of the Ukrainian American Youth Association will celebrate its 60th anniversary. This organization has encouraged three generations of youth to become productive American citizens. Members of the Ukrainian American Youth Association are proud of their national heritage and support the land of their ancestors in its quest to join Western democracies as an independent state.

Throughout my time as a Member of Congress, I have worked closely with members of the Ukrainian American community, including the Ukrainian Federation of America and the Ukrainian Congress Committee of America, to strengthen the ties between the United States and Ukraine. It gives me great pleasure today to recognize the Ukrainian American Youth Association for its work toward that same end.

Madam Speaker, I ask that my colleagues join me today in honoring the Philadelphia Branch of the Ukrainian American Youth Association for its support of and service to thousands of Ukrainian American youth over the past sixty years.

HONORING CRUSADER CLINIC ON ITS 37TH ANNIVERSARY

HON. DONALD A. MANZULLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Mr. MANZULLO. Madam Speaker, I rise today to recognize one of the jewels of northern Illinois, Crusader Community Health of Rockford. Crusader Community Health is a remarkable community-based, not-for-profit health center whose mission is to provide quality, primary health care to people in need in the Rock River Valley. Crusader Community Health systems is part of a network of more than 1,200 federally qualified health centers in the United States serving 18 million people. These centers are doing tremendous work providing care to the medically disenfranchised in this nation. Crusader is the

backbone of our regional community's health care safety net, delivering high quality primary and preventive care for over 40,000 patients each year regardless of insurance status or ability to pay.

This year, Crusader Community Health is celebrating its 37th anniversary as one of the top community health centers in the nation. Crusader has been lauded by the U.S. Department of Health and Human Services (HHS), and will soon be featured on the National Medical Report program of National Public Broadcasting for its positive impact on the local community. Nationally, the community health centers program has been recognized by the White House Office of Management and Budget (OMB) as one of the most highly effective federal programs in existence.

Madam Speaker, I wish to extend my recognition and strong support of Crusader Community Health systems in Rockford, Illinois. Since its founding in 1972, Crusader Community Health has served my fellow citizens in northern Illinois with access to affordable and high quality medical and dental care. I am proud to support Crusader Community Health because I know many of my fellow citizens would be without health care if it were not for the dedication and professional excellence of the staff, board of directors and volunteers associated with this terrific local organization. Crusader is a great example of the effectiveness of the community health center program in this nation. This system of care saves lives and deserves continued public support. I am honored to recognize Crusader Community Health and its personnel here in the United States Congress today.

EARMARK DECLARATION

HON. DENNY REHBERG

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 21, 2009

Mr. REHBERG. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3183—Energy and Water Development and Related Agencies Appropriations Act, 2010.

Requesting Member: Hon. DENNY REHBERG
Bill Number: H.R. 3183

Account: Department of Energy—EERE

Requesting Entity: Montana State University-Bozeman, 207 Montana Hall, Bozeman, MT 59717

Description: Montana Algal BioDiesel Initiative—Algae, third generation or advanced biofuels, use photosynthesis to transform carbon dioxide and sunlight into oil. Algae can grow in water and on land, even land not suitable for food production. Even CO₂-rich emissions from fossil fuel (coal) burning powerplants can be used as feedstocks to support the growth of algae that produces biodiesel. The effective use of high temperature CO₂-rich exhaust gases (including the geothermal environments in Yellowstone) also produce algae that can flourish at high ambient temperatures. Currently, there are both practical and economic obstacles to increased use of biofuels from algae, but early research is promising. The funds requested would be used to advance the development of biofuels
